

The 2-Day Operator Carbine Course

This carbine course is designed to increase the skill level of the experienced shooter. The course will consist of approximately 1 hour instruction on firearm safety, the safe and correct way to handle and operate your carbine on and off the range, and a quick recap on the must-haves of rifle marksmanship. The initial instruction will be followed by 13 hours of challenging drills that involve a variety of shooting positions, distances, and target types. Drills will be performed from multiple positions, from standing to different types of ground work and barrier use. These drills are designed to improve accuracy and speed. Upon completion of this course the student will have a thorough understanding of firearm safety, firearm operation, and the ability to engage multiple targets both static and on the move.
