

SHOOT AND SAVE

The SHOOT AND SAVE course is designed to significantly increase the skill level of any marksman utilizing a semi-automatic carbine and pistol and teach you TCCC (tactical combat casualty care). The course will consist of approximately 1 hour of instruction on firearm safety, firearm operation, and the safe and correct way to handle and operate both weapon systems on and off the range. The initial instruction will be followed by 15 hours of gradually perplexing drills that involve a variety of shooting positions, distances, speed work, and TCCC. These drills will primarily originate from the standing position and are designed to improve both speed and accuracy. Upon completion of this course the student will have a thorough understanding of firearm safety, firearm operation, the ability to engage multiple targets with multiple shots, and the knowledge and skills required to save lives.

Course Objective: The student will gain a high level of confidence in TCCC and the safe handling and operation of an AR-15 type rifle and pistol. which will in turn show substantial improvement in accuracy and speed of target engagement and the ability to treat casualties under stress.
