

3 Day Shooting and CQB Course

This course is for the experienced shooters who have a law enforcement background and have aspirations to learn a variety of tactical applications utilizing both firearms in and around buildings. The course will consist of a quick review of instruction on firearm safety, firearm operation, and the proper handling techniques needed for tactical shooting. The remaining 23 hours will involve CQB analysis and techniques for hostage rescue and deliberate assault CQB, to include marksmanship training with both carbine and pistol on an assortment of increasingly challenging drills and events. After completion of this course the student will have an in-depth understanding of firearms safety, marksmanship fundamentals, target discrimination, and how to tactically maneuver and engage multiple targets from a variety of firing positions in a CQB environment in and around buildings.

Course Objective: The student will demonstrate a high level of proficiency and accuracy with target discrimination in a deliberate assault or hostage rescue CQB environment.

Enabling Objectives:

- General firearms safety
- Safe loading, unloading, and proper clearing procedures
- Sights, zeroing, slings, holster, equipment setup
- The must-haves of rifle and pistol marksmanship
